CHINA'S GEOPOLITICS

Thursday, July 5th, 5:30pm [SL 301]

In the last 15 years, China has implemented a wide-ranging strategy of economic outreach and expansion of all its national capacities. Where the United States has taken a step back from multilateral trade, China has made inroads through efforts like the Belt and Road Initiative and the Asian Infrastructure Investment Bank (AIIB). What are Beijing's geopolitical objectives? What policies might Washington adopt to address this circumstance?

MEDIA AND FOREIGN POLICY

Thursday, July 26th, 5:30pm [SL301]

State and non-state actors today must maneuver a complex and rapidly evolving media landscape. Official channels of communication can be circumvented through social media. Foreign policy is tweeted from the White House and "fake news" has entered the zeitgeist. Cyberwarfare, hacking and misinformation pose complex security threats. How are actors using media to pursue and defend their interests in the international arena? What are the implications for U.S. policy?
